19326 Occurrences

Restoration (23%)
5658 Occurrences

As a Result of Equipment Repair or Replacement

Prevention (70%)
264 Occurrences

Restoration (30%)
115 Occurrences

- In FY 2016, LIHEAP benefits in Arizona **prevented the loss of service 19,326 times**, by stopping threatened utility service disconnections and by delivering fuels to homes that were at risk of running out. In addition, the program **repaired or replaced heating or cooling equipment at imminent risk of failure 264 times**.
- In FY 2016, LIHEAP benefits **restored home energy service 5,658 times** for households who had been disconnected by their utility provider or who had run out of fuel oil, propane, or wood. In addition, the program **restored home energy service 115 times by repairing or replacing inoperable heating or cooling equipment**.

* High burden recipient households represent 25% of all recipient households with 12 months of bill data, based on having the highest energy burden. The attached State Snapshot provides detailed income, energy cost, and burden statistics across all fuel types.
